reports of interest to GMIC. (Copies are being reproduced and will be disseminated to GMIC members by the Secretariat).

14. The Chairman read a cable from ATIC which proposes supplementary information for PART II, NIE 11-5-56. (Lt. Col. James C. Manatt, ATIC, will provide additional information at the next meeting.)

15. The Chairman requested that each member prepare a critique of the activities of GMIC over the past several months. Consideration should be given as to whether these activities have been consonant with the Terms of Reference and the informal guidance given by the Chairman, IAC, at the initial GMIC meeting. Recommendations should be made relative to programming future GMIC activities. A critique of this nature has already been prepared by the CIA member. When all contributions are received by the Secretariat, a copy of each contribution will be routed to the members. No fixed deadline was established for consideration of contributions, however, it is expected that the Committee members will act on this matter within the next two months.
